

TECHNOLOGY, MATH AND LITERACY

GRADES 7 AND 8 SUMMER PROGRAM 2017

STUDENT REGISTRATION PACKAGE

Welcome to this summer's Technology, Math and Literacy Program. This student-friendly and engaging program is designed for 21st century learners who want to improve their literacy and numeracy skills through a blended learning environment. Utilizing technology in the classroom proves to be a motivating venue that focuses on the key literacy and numeracy concepts in an enjoyable and interactive way.

Teachers will use available technological resources (e.g. Internet, computers, SMART Boards, iPads, Web 2.0 tools, etc.) to devise engaging and purposeful technology-based learning activities designed to enhance classroom instruction and support student achievement. Students will be working within a secure, password protected online learning environment called the provincial Learning Management System (LMS). They may respond to classroom assignments via the computer, participate in online classroom discussions and access selected online learning resources to explore and reinforce concepts.

Your child's classroom will be equipped with interactive technology and every student will have access to a computer/laptop. In addition, students will be allowed to bring their own electronic devices such as tablets, cell phones and laptops to enhance their learning.

This summer's two-week program will be from Monday, July 10th to Friday, July 21st from 8:30 a.m. to 12:30 p.m. Our programs are located at various schools based on enrolment. Please choose the site that is most convenient to your family.

This package contains the:

- Student Application Form
- Tell Me More About You.

Please complete these forms with your child. Once completed, please return the forms to your home school teacher by Friday, June 9th. Once again, thank you for enrolling your child in what will be a beneficial and enjoyable program. The response to last summer's technology camp was overwhelmingly positive and we look forward to an even better experience this summer!

Should you have any questions please ask the classroom teacher or contact Christine Waite at St. Charles 905-577-0555 extension 3200 or at waitec@hwcdsb.ca.

We want to know all about you!

1. What are your best subjects in school? What makes them the easiest for you?
